Dear Mr. Mancini:

The U.S. Environmental Protection Agency (EPA) Region 2 and the New Jersey Department of Environmental Protection (NJDEP) have completed our review of the Response to Comments (RTCs) on Chevron's June 2017 Updated Leak Detection Monitoring Program (LDMP) and Updated Leachate and Groundwater Monitoring Plan (LGMP) for CAMU Cells 1 through 3, dated April 17, 2018 for the Former Chevron Perth Amboy Facility in Perth Amboy, Middlesex County, NJ. The April 2018 RTCs for the LDMP and LGMP for CAMU Cells 1 through 3 was submitted by Chevron Environmental Management Company pursuant to the Resource Conservation and Recovery Act (RCRA), the Hazardous and Solid Waste Amendments (HSWA) Permit of 2013, and the Technical Requirements for Site Remediation at N.J.A.C. 7:26E (TRSR). EPA and NJDEP hereby approve the April 2018 RTCs for the LDMP and LGMP for CAMU Cells 1 through 3 and the original Updated LDMP and Updated LGMP for CAMU Cells 1 through 3, dated June 9, 2017 effective the date of this letter.
